Existence of God: Aquinas, Five Proofs Christabel N. Pankhurst

The realization that there are five substantial proofs for the existence of God, is somewhat of a surprise for many people. This penetrating and insightful book lays out the demonstration of the proof of God in a logical way. Based on Aquinas' Five Ways the author uses both the philosophical rhetoric and also a simple to understand explanation. The author wishes to instruct the reader that they too may be fluent in explaining to others the logic of the existence of a Supreme Being - that which we call God.
