**The Other Side Of Gravity (The Oxygen Series Book 1)** Shelly Crane

My name is Maxton and I'm a trader.

I live on a soulless planet where gravity, oxygen, and everything else are sold to the highest bidder on the black market. People are sold on the black market, too. You have to work really hard not to become one of those people. Pay your taxes, keep your friends and family close, and more than anything else—don't get caught by the Militia. But all the rules changed for me the day I found her.

My name is Sophelia and I'm a stowaway.

I've been a slave for almost as long as I can remember. Waiting for the one day, one second, for my proprietor to turn his head so I could run and never look back. Now I'm on the run. And on a planet where no one is on your side and people would turn you in for a good meal or a piece of a silver, being on the run on Landu is the last place you want to be. Until he found me.

I won't survive without him.

I can't breathe without her.
