**About Peace and Peacemaking** Maria Cristina Azcona (Ed.)

Second Edition This is a compilation of peace articles by famous writers and philosophers specialized in peace building matters and a summary of their respective point of view. Twelve writers, twelve minds, twelve styles but only one obsession: To resolve the dilemma of war, social violence and the preservation of human life. Love, life, humanity, serenity of thought, familiar peace and other meanings around the need of a change in this crazy, violent and self destructive civilization, are some of the topics in these essays. Peace is possible especially through literature as we explain in the book but also through the education of respect to human dignity
