Exploring Creation with Human Anatomy and Physiology (Young Explorer Series) Jeannie K. Fulbright, Brooke Ryan

From head to toe, your child will encounter fascinating facts, engaging activities, intriguing experiments, and loads of fun as together you learn about the human body and how to keep it working according to God's design. After a brief history of medicine and a peek into cell structure and DNA, kids will take a fantastic voyage through each of their main physiological systems, including the skeletal, muscular, respiratory, digestive, circulatory, and nervous systems and more! They'll learn about nutrition and health, embryology, major organs, how their immune system is designed to protect them, and what makes each of us a unique creation of God. In addition, your children will enjoy various experiments and projects, such as testing the bacteria content around the house, finding their own blood type, creating a cell model from Jell-O and candy, and even building a stethoscope!
