**Automotive Electricity and Electronics (5th Edition) (Automotive Systems Books)** James D. Halderman  
This book is part of the Pearson Automotive Professional Technician Series, which provides full-color, media-integrated solutions for today's students and instructors covering all eight areas of ASE certification, plus additional titles covering common courses. Peer reviewed for technical accuracy, the series and the books in it represent the future of automotive textbooks.

*Automotive Electricity and Electronics* fills the need for a text that covers the ASE/NATEF designated topic of Automotive Electrical and Electronic Systems (A6). It is designed to be a two-semester text and covers the fundamental, as well as the advanced, electrical topics taught in all schools and colleges that teach automotive electricity and electronics.

## **Prepare tomorrow's automotive professionals for success**

*Automotive Electricity and Electronics, 5/e*, provides complete coverage of the parts, operation, design, and troubleshooting of automotive electricity and electronics systems, as well as the practical skills that readers must master to be successful in the industry. Real examples and full color images throughout the text offer readers a practical approach to the diagnosis and repair of the NATEF tasks for the Automotive Electricity/Electronic Systems (A6) content area. Formatted to appeal to today's technical trade students, Halderman uses helpful tips to bring concepts to life and guide readers through the procedures they'll use on the job.

All of the content is correlated to the latest NATEF tasks and ASE areas, and information on new OSHA hazardous chemical labeling requirements, three-legged and low profile fuses plus smart junction boxes, and immobilizer systems is included.
