Pediatrics: Cardiology Issues in Primary Care (Audio-Digest Foundation Pediatrics Continuing Medical Education (CME). Book 58) Audio Digest

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners – physicians and other healthcare professionals – with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice.

Audio-Digest Pediatrics is specifically designed to provide the participant with state-of-the-art information, including, but not limited to, the diagnosis and management of:

- Allergy & seasonal concerns
- Cardiopulmonary disease
- Dermatologic problems
- Cancer in children and adolescents
- Fever
- Gastrointestinal problems
- Genetic concerns
- Hearing impairment
- Infectious disease
- Neurologic problems
- Newborn screening
- Nutritional concerns
- Psychosocial issues
- Respiratory disease
- Sports injuries
- Urologic disease
- Visual impairment

The goal of this program is to improve the diagnosis and management of children with chest pain, palpitations, or syncope, and to promote appropriate screening of cholesterol in children. After hearing and assimilating this program, the clinician will be better able to:

- 1: Identify pathologic conditions that present with chest pain, palpitations, or syncope in children.
- 2: Perform the appropriate tests to diagnose children with chest pain, palpitations, or syncope.
- 3: Confidently reassure parents of children with noncardiac causes of chest pain.
- 4: Apply new cholesterol screening recommendations.
- 5: Treat children with high cholesterol levels.
