Pediatrics: OPHTHALMIC ISSUES FOR THE PRIMARY CARE PHYSICIAN (Audio-Digest Foundation Pediatrics Continuing Medical Education (CME). Book 55) Audio Digest

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners – physicians and other healthcare professionals – with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice.

Audio-Digest Pediatrics is specifically designed to provide the participant with state-of-the-art information, including, but not limited to, the diagnosis and management of:

- Allergy & seasonal concerns
- Cardiopulmonary disease
- Dermatologic problems
- Cancer in children and adolescents
- Fever
- Gastrointestinal problems
- Genetic concerns
- Hearing impairment
- Infectious disease
- Neurologic problems
- Newborn screening
- Nutritional concerns
- Psychosocial issues
- Respiratory disease
- Sports injuries
- Urologic disease
- Visual impairment

The goal of this program is to improve the management of common eye conditions in children. After hearing and assimilating this program, the clinician will be better able to:

- 1: Differentiate and recognize the various causes of conjunctivitis, based on the patient's history and signs and symptoms.
- 2: Distinguish between the various ocular allergic conditions.
- 3: Discuss the pharmacologic management of bacterial and allergic conjunctivitis.
- 4: Recognize which ocular conditions require emergent referral.
- 5: Recognize and treat ocular conditions associated with contact lenses and trauma.
