TECHNOLOGY AND SCIENCE IN EDUCATION MAGAZINE: STEM (Science, Technology, Engineering and Maths). A publication devoted to the teaching of science, engineering education and design technology, including art and design, business studies, craft design technology, textiles, food technology, mathematics and ICT.

Published eight times a year it provides schools, colleges, universities and other educational buyers worldwide with a single access point for all their Design Technology needs.

Towards the back of this eBook you will find a list of advertisers and their websites where suppliers offer additional discounts for schools regular purchases. Each issue features a particular aspect of the use of technology in education. In just forty pages it is impossible to cover all the latest developments in design technology. We have therefore chosen page titles that will point you in the direction of further information and how it can be applied to teaching technology in education.

Articles include methods on how to integrate the teaching and learning resources into the school curriculum and making lessons more enjoyable for students. Many suppliers also offer products and licenses for students own use. For parents at home a useful resource to keep abreast of latest technology used for in their children's schooling. Many more eBook titles with accompanying software can be found from the link above.
