**What Is a Liquid? (First Step Nonfiction)** Jennifer Boothroyd

**What Is a Liquid?**

Concepts that describe the basic physics of liquids are explained in five to fifteen-word sentences that define what a liquid is and what it is not. The properties of liquids are also described. The first page introduces matter, and a series of introductory pages put a liquid within the larger context of matter. Colorful photographs of young children and adults accompany the descriptions of each characteristic of a liquid. Two pages at the end of the book suggest an activity demonstrating that an amount of liquid may look smaller or greater, depending on the shape of its container. A list of six "Fun Facts" about liquids follows, with a glossary and an index concluding the book. This book is part of the "First Step Nonfiction States of Matter" series and would be a good addition to a preschool and/or early elementary science program.

#### **Sylvia Alexander:**

As a student exactly feel bored to reading. If their teacher questioned them to go to the library as well as to make summary for some book, they are complained. Just small students that has reading's heart and soul or real their interest. They just do what the trainer want, like asked to go to the library. They go to right now there but nothing reading very seriously. Any students feel that studying is not important, boring as well as can't see colorful photos on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. So , this *What Is a Liquid? (First Step Nonfiction)* can make you experience more interested to read.
