## **Anarchism and Other Essays - The Original Classic Edition** Emma Goldman

I've heard from many people who are interested in reading books about anarchism (although I think the term anarchism is incorrect) that most books about anarchy are heavy and difficult to get through much less understand because they aim their content to readers that have a good background of political understanding (its terminologies, its schools of thought, its currents and so forth..).

If this happens to be your problem then this book will be ideal if you want to discover what this political philosophy stands for and what its issues are and, indeed, have been for a long time.

Emma Goldman, a woman with as fiery a personality as they come, has put together here a number of essays about anarchy that are easy to comprehend and definitely thought inspiring. Despite this book having been first published in 1917 it loses nothing of its importance in the current state affairs as all of the issues Goldman deals with not only remain unsolved but they have -in the meantime- become a social burden or a social disaster much worse than back in her time. Oh, and back in her time things a

lready looked bad enough.

What you get here is, summarily, the following: -anarchy, what is it and what does it stand for? Beyond the mainstream media cliches anarchy stands for personal and societal freedom of the highest conceivable order. A freedom, anarchists insist, that is not a utopia. Its basically a hard lesson in crushing your illusions and opening unthought of doors of perception of what freedom really means. That would be then something other than being in a cage and having food thrown in. Even if the cage is invisible..

-Hard punching essays about the prison system and the everself-destructing notion of patriotism.. Funny how every line one reads in there couldve been written yesterday.
