## **The Dark Side of Church/State Separation: The French Revolution, Nazi Germany, and International Communism** Stephen Strehle

*The Dark Side of Church/State Separation* analyzes the Enlightenment's attack upon the Judeo-Christian tradition and its impact upon the development of secular regimes in France, Germany, and Russia. Such regimes followed the anti-Semitic/anti-Christian agenda of the French Enlightenment in blaming the Judeo-Christian tradition for all the ills of European society and believing that human beings can develop their own set of values and purposes through rational means, apart from any revelation from God or Scripture.

Stephen Strehle's analysis extends our understanding of church/state relations and its history. He confirms the spiritual roots of modern anti-Semitism within the ideology of the Enlightenment and recognizes the intimate relationship between anti-Semitism and anti-Christianity. Strehle questions the absolute doctrine of church/state separation, given its background in the bigotries of the *philosophes*. He notes the nefarious motives of subsequent regimes, which used the French doctrine to replace the religious community with the state and its secular ideology.

This detailed historical analysis of original sources and secondary literature is woven together with special appreciation for the philosophical and theological ideas that contributed to the emergence of political institutions. Readers will gain an understanding of the most influential ideas shaping the modern world and present-day culture.
