Freedom of Choice: Vouchers in American Education (Praeger Series on American Political Cultures)

Jim Carl

This book reveals that, far from being the result of a groundswell of support for parental choice in American education, the origins of school vouchers are seated in identity politics, religious schooling, and educational entrepreneurship.

- Case studies describe, explain, and compare the origins of school vouchers in four states: Louisiana, New Hampshire, Ohio, and Wisconsin
- Interviews with key participants in the debates over school vouchers, including Christopher Jencks and the late Milton Friedman
- Eight tables and graphs detail demographic and educational changes in New Orleans, Milwaukee, and Cleveland
- Four maps show the locations of voucher schools and programs in New Orleans, New Hampshire, Milwaukee, and Cleveland
- Photographs of student and parent supporters of school vouchers
- A bibliography of primary and secondary sources in urban history, history of education, and educational policy studies
