High Temperature Coatings demonstrates how to counteract the thermal effects of the rapid corrosion and degradation of exposed materials and equipment that can occur under high operating temperatures. This is the first true practical guide on the use of thermally-protective coatings for high-temperature applications, including the latest developments in materials used for protective coatings. It covers the make-up and behavior of such materials under thermal stress and the methods used for applying them to specific types of substrates, as well as invaluable advice on inspection and repair of existing thermal coatings.

With his long experience in the aerospace gas turbine industry, the author has compiled the very latest in coating materials and coating technologies, as well as hard-to-find guidance on maintaining and repairing thermal coatings, including appropriate inspection protocols. The book will be supplemented with the latest reference information and additional support for finding more application-type and industry-type coatings specifications and uses, with help for the reader in finding more detailed information on a specific type of coating or a specific type of use.

- Offers overview of the underlying fundamental concepts of thermally-protective coatings, including thermodynamics, energy kinetics, crystallography, and equilibrium phases
- Covers essential chemistry and physics of underlying substrates, including steels, nickel-iron alloys, nickel-cobalt alloys, and titanium alloys
- Provides detailed guidance on wide variety of coating types, including those used against high temperature corrosion and oxidative degradation, as well as thermal barrier coatings

### From reader reviews:

#### **Donald Chapin:**

Why don't make it to be your habit? Right now, try to prepare your time to do the important behave, like looking for your favorite e-book and reading a reserve. Beside you can solve your condition; you can add your knowledge by the e-book entitled High Temperature Coatings. Try to stumble through book High Temperature Coatings as your close friend. It means that it can for being your friend when you truly feel alone and beside that course make you smarter than ever. Yeah, it is very fortunated for yourself. The book makes you far more confidence because you can know every thing by the book. So , let's make new experience in addition to knowledge with this book.

#### **Charles Howell:**

The book High Temperature Coatings can give more knowledge and information about everything you want. So just why must we leave a good thing like a book High Temperature Coatings? Some of you have a different opinion about guide. But one aim that book can give many facts for us. It is absolutely suitable. Right now, try to closer using your book. Knowledge or details that you take for that, you could give for each other; you can share all of these. Book High Temperature Coatings has simple shape nevertheless, you know: it has great and large function for you. You can look the enormous world by open and read a e-book. So it is very wonderful.

#### **Charles Krueger:**

The reserve untitled High Temperature Coatings is the book that recommended to you to see. You can see the quality of the reserve content that will be shown to an individual. The language that publisher use to explained their ideas are easily to understand. The article author was did a lot of study when write the book, hence the information that they share to you personally is absolutely accurate. You also might get the e-book of High Temperature Coatings from the publisher to make you far more enjoy free time.

#### **Elizabeth Maez:**

You can get this High Temperature Coatings by browse the bookstore or Mall. Just viewing or reviewing it can to be your solve difficulty if you get difficulties for your knowledge. Kinds of this guide are various. Not only by means of written or printed but also can you enjoy this book by means of e-book. In the modern era such as now, you just looking by your mobile phone and searching what your problem. Right now, choose your ways to get more information about your e-book. It is most important to arrange yourself to make your knowledge are still up-date. Let's try to choose suitable ways for you.
