Einstein's last secret, mankind's only hope. Wow! Einstein would have loved this book. It's a great thriller, it has a sure feel for politics, and the science is both fun and solid. He always dreamed that he would discover a unified theory that explained all of nature's forces. Now this book makes the quest come alive! Final Theory is a stupendous read! Real characters, real science, a deliciously explosive premise and a breakneck plot combine to make this one of the finest science-based thrillers to appear in a long time. Final Theory rules. If I were Michael Crichton, I'd be packing my bags and heading for a quiet retirement in Tahiti. An ingenious twist on Einstein's genius.
