This set of 220 flash cards is based on the images in *Anatomy: A Photographic Atlas, Eighth Edition*. This is the only gross anatomy flash card set that includes full-color photographs of actual cadaver dissections. The photographs realistically depict anatomic structures as seen on the cadaver, allowing students to prepare for lab dissections and study for practical laboratory exams. On the front of each card is an image with key structures labeled. On the back of each card are hints to help identify the structure and relevant clinical pearls.
