Nature Spirits: The Remembrance Susan Raven

"The task of the troubadour has always been to listen to the wind and anticipate the future, to discern the fine nuances of a spiritual age and to play the dual roles of receiver and transmitter. My many years as a songwriter and performer have encouraged me to go ahead and petition the hidden spirit within nature to reveal its inspirations and imaginations." **Susan Raven**

In this lucid, step-by-step guide, Susan Raven introduces us to the world of nature spirits and elemental beings, explaining why those entities wish to reconnect with us. By working with the elementals—which reside in the elements of earth, water, air, and fire—we can become responsible co-creators at this critical time in our evolution. The future of humanity and the Earth may depend on such a positive and reciprocal relationship.

Raven investigates the nature of the accelerated, evolutionary wave of consciousness pulsing into Earth at the present time, and how its effects are helping us forge a new link with the spiritual and etheric worlds. It is in the ether—where the dissolving and coalescing forces behind physical matter exist—that we find the kingdom of the nature spirits. Making use of her personal experiences, Susan describes the activities of these beings in the landscape, in plants and in human beings. She presents meditations and exercises to prepare us for a meeting with the nature spirits, and emphasizes the importance of working with the elemental kingdom in our immediate environment.

The path of personal development outlined in *Nature Spirits: The Remembrance* features a wide range of insightful testimony from some of the most well respected seers, with particular emphasis on the work of Rudolf Steiner.
